## SIXTY DAYS MAY END THE FLOOD

High Rate of Drainage Still Continues at Ontario Tunnel.

HISTORY OF DRAIN TUNNEL

WHAT IT COST, SAVES AND MEANS TO CAMP.

Late reports from the Ontario drain tunnel yesterday afternoon were to the effect that there had been no change in the flow during the preceding forty-eight the mine has shown no lower level during that time, the flow from the tunnel still holds at approximately 30,000 gallons per minute, which means that the mine workings are being relieved at the rate of about 23,000 gallons per minute, that being the excess of water above what

The mine has been inundated for a little more than seven months and during

ched the flow varied | Original Bullfrog

## Great Depth Attained.

Great Depth Attained.

hile this tunnel cuts the mine at No. aft 1,550 feet deep it opens other pors of the Ontario and Daly mines to epth of 1,800 feet beneath the highest ace points. It is to be driven into Daly West and will tap that mine its shaft 2,100 feet deep. Several of big mines of the district either cover lie close to the water channels that e made the Ontario and Daly about wettest precious metal mines in the dd, so it is not to be wondered at that deepest interest is taken in the final completo reopening of the tunnel.

## MINING STOCK EXCHANGE.

Business-Market Featureless. lating effect on stocks in that Daly, Ontario, Daly-West and Judge have each strengthened some, the there has been no trading in On-

ign there has been no trading in Onthe local market is still a very narone, so narrow that it does not rea much to move the price of any
k in either direction. On the whole,
igh, it can be said that the prospects
a livelier market during the winter
no less bright than they were a week
and a big strike in any of the camps
now would be very apt to result
eithing things going. During the last
weeks a great many low priced
ks have been bought with the idea
an awakening in the market was
it due, while there has been no hesiy on the part of investors in buythe high priced stocks at every sign n setting things going. During the last two weeks a great many low priced stocks have been bought with the idea that an awakening in the market was about due, while there has been no hesitancy on the part of investors in buying the high priced stocks at every sign of weakness.

Following is the list of final quotations and record of sales made during yes-

happy.

The new train service introduced by the Salt Lake Route last week has been the cause of many visitors taking a run out there, and all who go marvel at the magnitude of the proposition and the great amount of work that has been done during the few weeks since the first shovelful of dirt was thrown on the switches that lead off from the main line of railroad to the site upon which the structures are now being reared.

## Good News of Development of Tono-

word has been received of important developments in the Tonopah Crown Point, under the management of J. M. Healy. When work was begun on the property about a year ago, a consultation was had with some of the best mining engineers in the country. One of these. John A. Kirby, advised that instead of following the rich ore vein which appeared at the surface, a tunnel be driven to connect with the porphyry dyke, several hundred feet distant. His juogment was that the permanent vein would be at the contact between the lime and porphyry. This necessitated the purchase of additional ground, which the directors obtained after considerable difficulty. Work was then prosecuted on the tunnel, to a point where the vein snould appear if it went in a straight line. Owing to the broken nature of the country, however, the ore did not show up at this point, and several drifts were run in different directions. Mr. Healy reports that one of several drifts were run in different direc-tions. Mr. Heally reports that one of these drifts along the contact, has just broken into ore, and while the values are not yet high, there is every indication of tapping the large vein at almost any time.

## Utah Stocks in Boston.

quotations:

Boston, Nov. II.—A poor bank statement today caused lower prices all through the list. Osceola showed the greatest decline, there being little demand for the stock. Copper Range and Amalgamated showed considerable liquidation. Franklin seems to be well bought around the present level. The money situation is still in bad shape and we can have no sustained advance for some time to come. Quotations: Open Board.

Sales. Op. High. Low. Close U. Copper ... 600 \$3375, \$3375, \$3375, \$335, James A. Pollock & Co. furnish the following as the closing quotations on the San Francisco exchange yesterday over their private wire:

## TONOPAH-GOLDFIELD STOCKS.

## Week Was One of Activity Though Market's Trend Was Downward.

follows:
San Francisco, Nov. II.—The past week was one of much activity on the Tonopah exchange, especially in Goldfield stocks, caused by a flood of selling orders, which naturally made a great many buying orders. Most stocks closed somewhat weaker. Montana offerings are numerous, notwithstanding most excellent reports from the property. It is rumored that they intend erecting a mill at Sodaville, which I cannot confirm. Some of the stocks bought by the east is commencing to come back, and I look for lower prices.

Midway and Belmont are both steady

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$80,300, as follows: Silver, lead, gold and copper ores. \$37,500; base bullion, \$42,800. Settlements for the week were a little below normal, probably on account of the smelters running a little light in anticipation of a coke famine. They amounted to \$467,300. Recent Strike Reveals Nine Feet of mine.

## Mining Notes.

Manager J. E. Darmer left for Tintie last night to size up conditions at the May Day property. General Manager Duncan MacVichie of the Bingham Consolidated was at the company's Dalton & Lark properties yes-terday.

The Pioneer sampler yesterday reported the receipt of three cars of ore from Al-ta, three from Bingham, two from Tintic and one from Nevada. Seven cars of ore from Tintic, three from Bingham, one from Nevada and one from Idaho were reported at the Taylor & Brunton sampler yesterday morning.

(Special to The Herald.)

Richfield, Nov. 11.—J. T. Breckon, who has been at the Trapper's Pride property on Gold mountain, says that they have one shift of men at work pushing on the recent strike. The vein is now nine feet wide, and from nine samples of the latest test shows values of from \$8\$ to \$26\$ per ton. The richest streat is about eighteen inches wide, but the whole vein is declared to be a good-milling proposition, and it is reported that the management will, if this winter's developments continue to show such ore, equip the mine with a mill. The management will add another shift to the mine next week.

The body of ore is \$60 feet from the mouth of the tunnel and at a depth of about 500 feet. A cross-cut and upraise show the ledge matter well established and carrying high grade ore all the way. Election Interfered With Week's

# What "Weakness" is and How

WEAK MEN PAY WHEN CURED.

\$3--CURES BY MAIL--\$3

Sick people who live out of the city should write Drs. Shores for their

ew symptom blank and take advantage of this grand offer and be cured for

33 a month for all Catarrhal chronic diseases. Write, if you cannot call, and

be cured at home. Consultation free for any disease.

Be sure your cure is thorough. Not one of our patients has ever had a relapse after being discharged as cured, and we cure in less time than the ordinary forms of treatment require.

Specific Blood Poison

No dangerous minerials to drive the virus to the interior, but harmless blood cleaning remedies, that remove the last poison taint.

We Cure it.

So-called weakness in men is merely a symptom of chronic internal in the prostate gland, brought on by early dissipation or by the improper treatment of some contracted disease. A complete and radical cure is therefore a question of restoring the prostate gland to the normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is a local one entirely. It is original and scientific and has been proven absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished.
